Professional Summary

Motivated and detail-oriented Computer Science student with strong knowledge of Data Structures and Algorithms, Python, and Web Development. Interested in software development and problem solving. Looking for opportunities to apply technical skills and contribute to real-world projects.

Education

Bachelor of Technology in Computer Science Invertis University, Bareilly CGPA: 7/10	2024 – 2028
Class XII S K S K A S V M Inter collage , Ujhani Grade: A	2023 – 2024

Technical Skills

Programming Languages: Python, C++, Java
Web Technologies: HTML, CSS, JavaScript
Database: MySQL
Tools: Git, GitHub, VS Code, Google Colab
Core Concepts: Data Structures and Algorithms, OOP, DBMS, Operating Systems

Projects

- Titanic Survival Prediction**
 - Built a machine learning model to predict passenger survival.
 - Used Python, Pandas, NumPy and Scikit-learn.
- IMDB Rating Prediction**
 - Developed a regression model to predict movie ratings.
 - Performed data preprocessing and feature engineering.
- Iris Flower Classification**
 - Implemented a classification model using the Iris dataset.
- Sales Prediction**
 - Built a predictive model for sales forecasting using machine learning.
- Credit Card Fraud Detection**
 - Developed a fraud detection model using classification algorithms.
- Portfolio Website**
 - Designed and developed a responsive portfolio website using HTML, CSS and JavaScript.

Experience

AI Web Development Intern InAmigos Foundation (IAF) — Remote	Jul 2026 – Present
- Worked on AI-powered web development tasks and website improvement. - Created responsive web pages and contributed to NGO digital solutions. - Collaborated remotely with mentors and completed assigned project tasks.	
Java Full Stack Developer Intern EduSkills Foundation — Remote	Jun 2026 – Present
- Learned Java Full Stack Development including frontend and backend concepts. - Worked on Java, HTML, CSS, JavaScript and database fundamentals. - Built mini projects following industry practices.	
Data Science Intern CodSoft — Remote	Jun 2026 – Jul 2026
- Developed Machine Learning projects using Python and Scikit-learn. - Completed projects including Titanic Survival Prediction, IMDB Rating Prediction, Iris Flower Classification, Sales Prediction and Credit Card Fraud Detection.	

- Performed data preprocessing, model training and evaluation.

AI/ML Intern

Jan 2026 – Mar 2026

EduSkills Foundation — Remote

- Learned Artificial Intelligence and Machine Learning concepts.
- Worked with Python, data preprocessing and ML workflows.

Conceptual CAE Design and Simulation Intern

Oct 2025 – Dec 2025

Altair — Virtual Internship

- Learned Computer-Aided Engineering (CAE) concepts and simulation fundamentals.
- Completed hands-on virtual internship activities and assessments.

Certifications

- Data Science Virtual Internship – CodSoft (2026)
- Data Analytics Essentials – Cisco Networking Academy (2026)
- Data Analytics Essential Badge – Cisco Networking Academy (2026)
- Smart India Hackathon (SIH) Participation Certificate – Ministry of Education, Government of India (2025)
- AI Skills Passport – EY / UMT Consulting Group (2026)
- LLM Young Developers - Foundational Course – NASSCOM (2026)
- Getting Started with Artificial Intelligence – IBM (2026)
- Build a Free Website with WordPress – Coursera (2026)
- AI/ML Virtual Internship Certificate – EduSkills Foundation (2026)
- Conceptual CAE Design and Simulation Virtual Internship – Altair (2025)

Achievements

- Participated in coding contests and hackathons.
- Maintained an active GitHub profile with multiple projects.

Interests

Problem Solving, Competitive Programming, Machine Learning, Web Development
